

Question	Answer
1	There are 431 balloons.
2	a) There are 270 sweets. b) There are 270 sweets. c) Children may explain that there are the same number of sweets but they are laid out in a different order.
3	Children circle three 100 boxes, one 10 box and six pencils. Possible answer: 
4	a) 452 b) 716
5	a)  b)  c) 
6	Alex has made 529
7	Children draw 1 hundred, 3 tens and 1 one.
8	275
9	True, Eva has used 10 tens instead of 1 hundred. $200 + 20 + 2 = 100 + 120 + 2$
