

**Year 2 – Autumn Term 2**  
**We Are Researchers**  
**Computing**

In this unit, the children research a topic – safely, effectively and efficiently – using a structured approach (mind mapping). They share their findings with others through a short multimedia presentation.

**Information Technology**

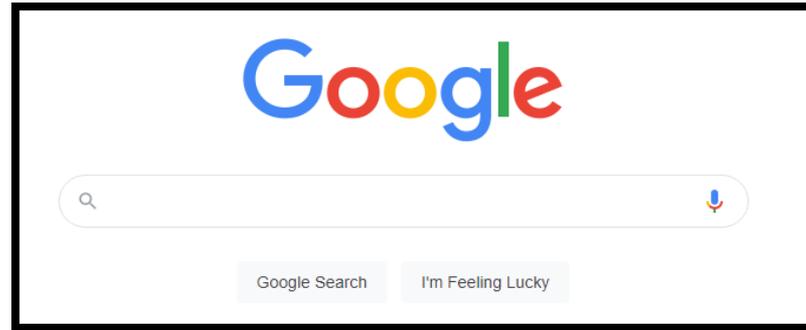

**Prior Knowledge**

Children will have used keyboards to type and enter information during their 'We are Celebrating' unit in Year 1. They will have used search engines during their Year 1 unit, 'We are Collectors'. They will have been exposed to the need to be safe on the internet during their e-safety lessons.

**E-safety:**

- To know that not everything on the internet is true.
- To use technology respectfully.

**Search engine**

A program that searches for and identifies websites, pictures and videos on the internet, using key words from the user.

**Google –**

One of the most popular search engines on the internet.

**research–**

Information that a user has taken from a source on a subject.

**presentation–**

Research and information that has been put together on a given subject. This information can then be easily viewed by others.
