

Year 1—Spring Term 1

Moon Zoom

Geography: Countries and Continents

This half term, our Big Question is...

What is a continent?

Key Facts	
<p>How many <b>continents</b> are there?</p> 	<p>There are 7 continents. These are: Asia, Africa, North America, South America, Antarctica, Europe and Australasia (which is sometimes called Australia or Oceania).</p>
<p>How many <b>oceans</b> are there?</p> 	<p>There are 5 oceans. These are: The Arctic Ocean, the Atlantic Ocean, the Indian Ocean, the Pacific Ocean and the Southern Ocean.</p>
<p>Where do we live in the world?</p>	<p>We live in England, which is part of the United Kingdom. This is a part of the continent of Europe.</p>
<p>What is a natural feature?</p> 	<p>A natural feature (sometimes called a <b>physical feature</b>) could include rocks, caves, cliffs, forests or mountains. These happen without any help from people.</p>
<p>What features are made by people?</p> 	<p>A feature made by people (sometimes called a <b>human feature</b>) could include bridges, buildings and roads. These do not happen appear without any help from people.</p>
<p>If a map or satellite image shows me a blue area, what does that mean?</p>	<p>A blue area on a map shows me water such as a lake, ocean or river.</p>
<p>If a map or satellite image shows me a green area, what does that mean?</p>	<p>A green area on a map shows me land such as a park, garden or forest.</p>

What do we already know?

In Reception...

Last Year you thought about what was natural and what might be man made in a story setting.

Last year, you thought about different countries from around the world.

Last year, you made simple maps from stories you had read.

### Key Vocabulary

human feature	A feature made by people.
ocean	A very large body of salt water is called an ocean.
physical feature	A natural feature which happens without humans creating it.
river	A body of water that flows towards the sea.
